For LIC, the listing of the shares means higher visibility and profile. Investors will be able to actively trade in its shares on the stock exchanges. It also means more transparency from the LIC side which was hitherto answerable only to the government. LIC will have to inform the investors and exchanges details about all price sensitive information after listing. In short, LIC will be accountable to the investors and meet their expectations. Investors are expected to demand a high level of corporate governance from the corporation.

10. Ans. d

The data from the EOS satellites are used for several applications covering agriculture, water

resources, urban planning, rural development, mineral prospecting, environment, forestry, ocean resources and disaster management.
