Explanation:

The Finance Ministry has recently given approval to a proposal to allow individuals and institutions to contribute directly to the National Disaster Relief Fund (NDRF). This is a significant development at a time when many have expressed concerns about donations sent to the PM CARES Fund or the Prime Minister's National Relief Fund, as both claim they are not public authorities subject to questions under the Right to Information Act. The NDRF was set up in accordance with Section 46 of the Disaster Management Act, 2005. It is meant to "meet the expenses for emergency response, relief and rehabilitation" for any disaster situation. Although Section 46 includes a clause for grants made by any person or institution, provisions for such donations had not been made. Hence both statements are correct.

Explanation:

The Supreme Court lifted its June 18 ban on the conduct of Puri Jagannath Rath Yatra after ensuring a complete lack of public attendance for the festival to avoid spread of infection amid the pandemic. Ratha Yatra is a Hindu festival associated with Lord Jagannath held at Puri in Odisha. It is regarded as the oldest Ratha Yatra taking place in India whose descriptions can be found in Brahma Purana, Padma Purana, and Skanda Purana and Kapila Samhita. This annual festival is celebrated on Ashadha Shukla Paksha Dwitiya (second day in bright fortnight of Ashadha month). The festival commemorates Jagannath's annual visit to Gundicha Temple via Mausī Maa Temple (aunt's home) near Balagandi Chaka, Puri. As part of Ratha Yatra, the deities of Jagannath, his elder brother Balabhadra and younger sister Subhadra are taken out in a procession to Gundicha Temple, which is situated at a distance of 2-3 km from their temple.

Explanation:

India's thermal coal imports rose 12.6% to nearly 200 million tonnes in 2019.

Coal is among the top five commodities imported by India, the world's largest consumer, importer and producer of the fuel.

Imports of thermal coal — mainly used for power generation — jumped 12.6% to 197.84 million tonnes in 2019. However, imports of coking coal — used mainly in the manufacturing of steel — fell marginally, following two straight years of increase.

India imported 51.33 million tonnes of coking coal in 2019, down from 51.63 million tonnes in 2018. Indonesia accounted for nearly 60% of India's thermal coal imports in the April-December period, government data showed, while South Africa accounted for 22% and Russia and Australia accounting for over 5% each.

Traders said coal imports grew largely due to lower production by Coal India Ltd., whose output fell for five consecutive months ended November due to the highest annual rainfall in 25 years and frequent outages including strikes by workers and locals.
